Medina Railroad Museum:

Located in the old New York Central freight depot in Medina, NY, the Medina RR Museum is one of the largest (301 feet by 34 feet) freight depot museums in the country. The building itself was built in 1905-1906, and is the last surviving wooden freight depot in the United States.

The Medina Railroad Museum features the largest Railroad and Toy Train Museum in New York State. It houses a huge HO-Scale model train layout, 204 feet by 14 feet, as well as large fire fighting exhibits.
